RING
since 1993

RING

RING

RING SPORT was founded in 1993 and in the following decades, it has grown into one of the largest and one of the leading importers of home fitness equipment, martial arts equipment, as well as equipment for professional gyms in southern Europe.

RING sports equipment is definitely the equipment with the best value for money in the region. It has been on the market for over 25 years, and is sold in over 300 stores in 7 countries.

Graduate technologists and athletes collaborate on the design of fitness machines and equipment. The result is massive use of **RING** fitness machines, props and equipment by both recreational and top athletes.

RING SPORT is dedicated to manufacturing quality and innovative products that offer healthy and comfortable lifestyle to their consumers.

We are committed to achieving the highest standard of quality, through attention to detail and design in production, while also ensuring the most competitive price on the market.

All of our machines have the necessary certificates, which are a guarantee of quality. Hence the percentage of complaints to our products below 2%

Our products are very well recognized globally and we are proud to find them in many multibrand stores and leading online stores in the region

RX 106 MAGNETIC BIKE

RX 106 MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt and bearing
- Steering angle adjustment
- Wheels for moving-modern design
- Metal-matte dark gray, box-matte gray-silver-blue detail
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 79x50x118
- Flywheel weight 5 kg
- For user's weight up to 100 kg
- NW-19 kg, GW 21 kg

RX 110 MAGNETIC BIKE

- Digital display (scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 2kg with 1pc crank
- Max loading weight (kg): 100
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle adjustment
- Products dimension: 80x51x124

RX 107 MAGNETIC BIKE

RX 107 MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt and bearing
- Steering angle adjustment
- Wheels for moving-modern design
- Metal-matte dark gray, box-matte gray-silver-blue detail
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 79x50x118
- Flywheel weight 6 kg
- For user's weight up to 100 kg
- NW-19 kg, GW 21 kg

RX 107 B MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt and bearing
- Steering angle adjustment
- Wheels for moving-modern design
- Metal-matte black, box-matte black-silver
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 79x50x118
- Flywheel weight 6 kg
- For user's weight up to 100 kg
- NW-19 kg, GW 21 kg
- Service and all spare parts provided

RX 109 MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt and bearing
- Steering angle adjustment
- Wheels for moving-modern design
- Metal-matte black, box-silver-blue detail
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 70x52x127
- Flywheel weight 6 kg
- For user's weight up to 100 kg
- NW-19 kg, GW 21 kg
- Service and all spare parts provided

RX 115 MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- Phone, I-pad, newspaper holder
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt and bearing
- Steering angle adjustment
- Metal-matte black, box-black-blue detail
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 91x46x127.5
- Flywheel weight 6 kg
- For user's weight up to 100 kg
- NW-18 kg, GW 20 kg
- Service and all spare parts provided

RX 112 MAGNETIC BIKE

- Digital display
(scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 100
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle vertical 8-position adjustable
- Products dimension: 84x48x127.5

RX 113 MAGNETIC BIKE

- Digital display
(scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 2.5kg with 1pc crank
- Max loading weight (kg): 100
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle adjustable
- Console angle adjustment
- Products dimension: 76.5x49x133

RX 117 MAGNETIC BIKE

- Digital display
(scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Max loading weight (kg): 110
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle adjustable
- Console angle adjustment
- Products dimension: 84x48x127.5
- NW 23 kg, GW 26 kg

RX 225 MAGNETIC BIKE

- ### RX 225 MAGNETIC BIKE
- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
 - 8 degrees of load-magnetic transmission-massive transmission for load (new model)
 - 8 saddle height levels (strong, comfortable); up-and-down saddle adjustment
 - New high-tech magnetic technology; reinforced driving belt and bearing
 - Steering angle adjustment
 - Wheels for moving-modern design
 - Metal-matte dark gray/black, box-matte gray-silver-blue detail
 - Leveling with the bike standing surface
 - Modern design
 - Mounted bike dimensions: 101x49x135
 - Flywheel weight 7 kg
 - For user's weight up to 120 kg
 - NW-25 kg, GW 27 kg
 - Service and all spare parts provided

RX 226 MAGNETIC BIKE

- Digital display (scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 120
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle adjustable
- Products dimension: 86x50x137

RX 220 MAGNETIC BIKE

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
 - Big modern display
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
 - 8 saddle height levels (strong, comfortable)
 - 8-level up-and-down saddle adjustment
- New high-tech magnetic technology; reinforced driving belt
 - Steering angle adjustment
 - Wheels for moving
 - Leveling with the bike standing surface
 - Modern design
- Metal-black, box-shiny black - gray - blue detail
 - Mounted bike dimensions: 100x52x132
 - Flywheel weight 9 kg
 - For user's weight up to 135 kg
 - NW-29 kg, GW 32 kg
 - Service and all spare parts provided

RX 225 R MAGNETIC BIKE WITH BACKREST

Bike intended for people who want more comfortable exercise,
which implies training without much spinal load.
At the same time, it is good for less mobile people and those with injured spine.

- Digital display (calories burned, riding time, speed, distance, scanning, odometer - total non-deletable km, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- Saddle (strong, comfortable, with a comfortable backrest): forward-back saddle adjustment on the lower part of the structure
- New high-tech magnetic technology; reinforced driving belt and bearing
- Wheels for moving - modern design
- Metal-matte dark gray/black, box- matte gray - silver - blue detail
- Leveling with the bike standing surface
- Modern design
- Mounted bike dimensions: 147x60x106
- Flywheel weight 7 kg
- For user's weight up to 120 kg
- NW-29 kg, GW 23 kg
- Service and all spare parts provided

RX 226R MAGNETIC BIKE WITH BACKREST

- Digital display (scan, time, speed, distance, calorie, pulse, odo)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 120
- Self-uprighting pedals with strap
- Transport roller/floor levelers
- Saddle adjustable
- Products dimension: 134x59x114

RX 807 B ELLIPTICAL TRAINER

- A machine between a stepper, bicycle, rowing machine and treadmill;
- Exceptional calorie burning;
- Modern digital display (calories burned, riding time, speed, distance, scanning, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- Modern design
- Metal-matte black, box- matte black - gray - silver
- Reinforced treads
- Leveling with the bike standing surface
- Mounted trainer dimensions: 70x52x127
- Flywheel weight 6 kg
- For user's weight up to 100 kg
- NW-28 kg, GW 31 kg
- 25 months warranty
- Service and all spare parts provided

RX 812 ELLIPTICAL TRAINER

- The LCD display (scan, time, speed, distance, calorie, pulse)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 100
- Transport roller/floor levelers
- Products dimension: 111x60x148

RX 816 ELLIPTICAL TRAINER

- Digital display (scan, time, speed, distance, calorie, pulse, ipad holder)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 110
- Transport roller/floor levelers
- Products dimension: 132x66x155

RX 825 ELLIPTICAL TRAINER

It is very important to keep in mind that for an orbitech elliptical to be functional, it must be stiff and massive. This is very important, as the machine bears complete user's weight, and only machines with minimum this size can handle it. Everything else on the market is subject to frequent breakdown.

- A machine between a stepper, bicycle, rowing machine and treadmill;
- **EXTREMELY** massive in its rank
- Exceptional calorie burning;
- Modern digital display (calories burned, riding time, speed, distance, scanning, pulse measurement - measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- Modern design
- Metal-matte black, box- shiny gray and gray with silver-black-blue details
- Reinforced treads
- Leveling with the bike standing surface
- Mounted trainer dimensions (cm): 125x69x162
- Flywheel weight 7 kg
- For user's weight up to 110 kg
- NW-33 kg, GW 38 kg
- 25 months warranty
- Service and all spare parts provided

RX 826 ELLIPTICAL TRAINER

- Digital display (scan, time, speed, distance, calorie, pulse, ipad holder)
- Training intensity: 8 levels by manual
- Brake system: Magnet
- Drive system: ribbed belt two-ways
- Flywheel system: HSR 3kg with 1pc crank
- Max loading weight (kg): 120
- Transport roller/floor levelers
- Products dimension: 134x69x159

RX 870 ORBITEK MAGNETIC ELLIPTICAL TRAINER

- A machine between a stepper, bicycle, rowing machine and treadmill;
- **EXTREMELY** massive in its rank
- Exceptional calorie burning;
- Modern digital display (calories burned, riding time, speed, distance, scanning, pulse measurement-measured on handlebar-palms)
- 8 degrees of load-magnetic transmission-massive transmission for load (new model)
- Modern design
- Metal-matte black, box- shiny dark gray and black with silver-black-blue details
- Reinforced treads
- Leveling with the bike standing surface
- Mounted trainer dimensions (cm): 129x62x155
- Flywheel weight 8 kg - reinforced transport belt - movement in 2 directions
- For user's weight up to 130 kg
- EAN and ISO certificate
- NW-39 kg, GW 44 kg
- Service and all spare parts provided

RX 135 MOTORIZED TREADMILL

- Multifunctional computer (distance, speed, time, calories)
- Extremely massive computer for its price
- New computer design-slim style-horizontal
- Pulse - measured on handlebar-palms)
- 15 different computer-set programs for running type (PS-P9), plus manual control;
- 4 LED displays with white illumination
- 6 quick speed choosing options
- Motor speed from 0.8km/h (very slow stroke) to 12km/h (fast sprint);
- Motor power 1.5 HP;
- Safety key (magnetic) - automatically switches off in case of fall;
- Adjusting incline - manual (3 levels);
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-matte black, plastic-black dark gray;
- Lifts after using (takes up less than m2 space);
- Wheels for moving;
- 120x40 cm tread belt
- Modern design
- Mounted machine dimensions:
- Length 149 cm x Width 70 cm x Height 115 cm
- Box size: 149 x 69 x 19 cm
- Maximum user's weight up to 100kg
- NW- 42 kg, GW - 49 kg

RX 150 MOTORIZED TREADMILL

- Extremely massive multifunctional computer (distance, speed, time, calories, pulse - measured on handlebar-palms) – soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, displays several functions at once
- 15 different computer-set programs for running type (P5-P9), plus manual control;
- Motor speed from 1km/h (very slow stroke) to 16km/h (fast sprint);
- Main motor power 2.5 HP;
- Adjusting incline – digital (has another motor for angle adjustment-15 levels-%)
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-sand pearl black, plastic-black-silver-gray; red details
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- 1250x450 mm tread belt
- Mounted machine dimensions:
Length 161 cm x Width 75 cm x Height 133 cm
- Box size: 170 x 77 x 33 cm
- Maximum user's weight up to 120kg
- NW- 65 kg, GW - 73 kg

RX 140 MOTORIZED TREADMILL WITH ONE MOTOR

Top quality treadmill at good price.

Measure pulse on handlebars. Set speed from 1 km/h to 14 km/h.

- Multifunctional LCD computer (distance, speed, time, calories, pulse - measured on handlebar-palms) - soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, displays several functions at once
- 12 different computer-set programs for running type, plus manual control;
- Motor speed from 1km/h (very slow stroke) to 14km/h (fast sprint);
- Main motor power 1.5 HP;
- Adjusting incline - manual
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space);
- Wheels for moving;
- Modern powerful design;
- Mounted machine dimensions:
Length 162 cm x Width 72 cm x Height 131 cm
- Maximum user's weight up to 110kg
- Lubrication recommended every 10-14 days with regular use
- 25 months warranty
- Service and all spare parts provided

RX 145 MOTORIZED TREADMILL WITH 2 MOTOR

Top quality treadmill at good price.

Measure pulse on handlebars. Set speed from 1 km/h to 16 km/h. Electronic incline adjustment.

- Multifunctional LCD computer (distance, speed, time, calories, pulse - measured on handlebar-palms) - soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, displays several functions at once
- 9 different computer-set programs for running type, plus manual control;
- Motor speed from 1km/h (very slow stroke) to 16km/h (fast sprint);
- Main motor power 2 HP;
- Adjusting incline - automatic
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- Mounted machine dimensions:
Length 146 cm x Width 75 cm x Height 136 cm
- Maximum user's weight up to 110kg
- Lubrication recommended every 10-14 days with regular use
- 25 months warranty
- Service and all spare parts provided

RX 199 MOTORIZED TREADMILL

RX 177 MOTORIZED TREADMILL

RX 177 MOTORIZED TREADMILL

- Extremely massive multifunctional computer (distance, speed, time, calories, pulse - measured on handlebar-palms)
- Soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, 7", displays several functions at once, including chart program overview
- User fat percentage measurement plus BMI/BMR/RECOVERY
- 15 different computer-set programs for running type (PS-P15), plus manual control;
- Motor speed from 0.8km/h (very slow stroke) to 16km/h (fast sprint);
- Main motor power 2.5 HP;
- Adjusting incline - digital (has another motor for angle adjustment-15 levels-%)
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-sand pearl black, plastic-black, powerful look; blue details
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- 1300x430 mm tread belt
- Mounted machine dimensions: Length 167.5 cm x Width 77 cm x Height 139.5 cm
- Box size: 180 x 81 x 33 cm
- Maximum user's weight up to 125kg
- NW- 67 kg, GW - 70 kg
- Lubrication recommended every 10-14 days with regular use
- 25 months warranty
- Service and all spare parts provided

RX 199 MOTORIZED TREADMILL

- Extremely massive multifunctional computer (distance, speed, time, calories, pulse - measured on handlebar-palms)
- Soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, 7", displays several functions at once, including chart program overview
- 14 + 3 different computer-set programs for running type, plus manual control;
- Motor speed from 1km/h (very slow stroke) to 16km/h (fast sprint);
- Main motor power 2.5 HP;
- Adjusting incline - digital (has another motor for angle adjustment-15 levels-%)
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-sand pearl black, plastic-black, with silver details around computer, powerful look;
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- 1300x450 mm tread belt
- Mounted machine dimensions:
- Length 167.5 cm x Width 80 cm x Height 150 cm
- Box size: 209 x 83 x 36.5 cm
- Maximum user's weight up to 130kg
- NW- 74 kg, GW - 81 kg
- Lubrication recommended every 10-14 days with regular use
- 25 months warranty
- Service and all spare parts provided

RX 201-A TWO-MOTOR TREADMILL

- extremely massive multifunctional computer (distance, speed, time, calories, pulse - measured on handlebar-palms)
- 4 LCD screens
- Black acrylic panel
- User fat percentage measurement plus BMI/BMR/RECOVERY
- 12 different computer-set programs for running type (PS-P12), plus manual control, plus 4 shortcut buttons
- Motor speed from 0.8km/h (very slow stroke) to 20km/h (fast sprint);
- Main motor power 3 HP;
- Adjusting incline - digital (has another motor for angle adjustment-15 levels-%)
- 3 quick speed selections, 3 quick incline selections
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-sand pearl black, plastic-black
- Motor case is flat, exceptional modern flat design
- Modern thresholds
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- 1400x510 mm tread belt
- Mounted machine dimensions:
- Length 180 cm x Width 86 cm x Height 139 cm
- Box size: 191 x 90 x 38 cm
- Maximum user's weight up to 130kg
- NW- 77 kg, GW - 89 kg

The treadmill is connected to the FITSHOW application

FitShow application features

- INDOOR - records your exercise on treadmill
- OUTDOOR - records your exercise outside, using GPS
- INDOOR program Jogging in picturesque surroundings
- Gobi, prairie, iceberg, forest, desert Maps - select a record according to map of 10 preset programs
- walking, racing stroke, high intensity, durability and other Goal - target time (min). target distance (km), target calories (kcal)
- Information displayed: time, calories, distance, steps per minute, heart rate, average speed

RX 155

MOTORIZED TREADMILL WITH 2 MOTOR

Top quality treadmill at good price.

Measure pulse on handlebars. Set speed from 0.8 to 14 km/h. Electronic incline adjustment.

- Extremely massive multifunctional computer (distance, speed, time, calories, pulse - measured on handlebar-palms) - soft touch; bottle and accessories (phone, remote control, keys...) storing
- Big blue LCD screen, displays several functions at once
- 9 different computer-set programs for running type (PS-P9), plus manual control;
- Motor speed from 0.8km/h (very slow stroke) to 14km/h (fast sprint);
- Main motor power 2 HP;
- Adjusting incline - digital (has another motor for angle adjustment-15 levels-%)
- Safety key (magnetic) - automatically switches off in case of fall;
- AIR STEP (air-natural feel when running); tread made of exceptional highly elastic and durable MDF material:
- Metal-sand pearl black, plastic-black-silver-gray; blue details
- Modern thresholds
- Towel holder, also treadmill poles stability reinforcement
- Lifts after using (takes up less than 1 m2 space); when lifting, lowers slowly using shock absorbers
- Wheels for moving;
- Modern powerful design;
- 1220x420 mm tread belt
- Mounted machine dimensions:
Length 167.5 cm x Width 77 cm x Height 139.5 cm
- Box size: 180 x 81 x 33 cm
- Maximum user's weight up to 120kg
- NW- 57 kg, GW - 65 kg
- Lubrication recommended every 10-14 days with regular use
- 25 months warranty
- Service and all spare parts provided

**RX AF 4020
ADJUSTABLE
BENCH LUX**

**RX SUB 1081
FLAT
BENCH**

**RX 06 BW
UNIVERSAL
BENCH**

RX 06 BW UNIVERSAL BENCH

- Exceptional bench design
- Black and white, high quality synthetic leather
- Black sandblasted metal, done by special method worked
- Pipes 40x40 in size
- Bench has 3 levels of angle adjustment for inclined bench thrust
- Safety hook for bench mounted rod
- Leg extension (quadriceps and hamstring exercises)
- Logo embroidered on the bench
- Max weights for placing on the bench 120 kg (with mandatory assistance)
- Max user's weight 100 kg

RX SUB 1081 FLAT BENCH

- Very compatible for all types of exercises
- Dimensions 40x40
- Suitable for all types of exercises, exercises with dumbbells, two-hand weights, can even serve as bench with assistance
- Does not take up much space in the apartment
- Length 80 x Width 50 x Height 50 cm
- NW-9 kg. GW-11 kg

RX AF 4020 ADJUSTABLE BENCH LUX

- Professional adjustable bench
- Ideal for gyms, crossfit centers
- Designed for extremely heavy loads and weights for both the user and the load used by the user
- Extremely well designed bench angle adjustment system - it can be used for a wide belt of muscle groups. This adjustment is frequent problem for all adjustable benches. Here, the system is designed to be very simple, quick for control, and fantastic in design.
- It has wheels and a handlebar for easy bench movement
- Max user's weight 130 kg
- Max load weight 150 kg
- Folded bench dimensions: Length 134 x Width 64 x Height (48-117) cm

**RX 07-C
MULTIPURPOSE
ABDOMINAL
BENCH**

**RX 07
CRUNCHES
BENCH**

RX 07 CRUNCHES BENCH

- The most realistic and efficient ab strengthening machine
 - Bench angle adjustment
 - Tube dimension 50x50 cm
 - Max user's weight 120 kg

RX 07-C MULTIPURPOSE ABDOMINAL BENCH

- Very compact multipurpose bench with favorable price
 - 2 position option

- 1) Classic ab bench
- 2) Mini bench (for exercises with dumbbells, rod, lower abs)

- Intended for work with lower weights!
 - Easily foldable
 - Modern shiny design

RX 07 PLUS MULTIPURPOSE ABDOMINAL BENCH

- The most realistic and most effective device for strengthening the abdominal and back muscles;
 - Adjusting the bench angle;
 - Holders for two dumbbells;
 - Tube dimension 50x50 cm
 - Easy and fast installation;
 - Max weight of exerciser 120 kg

RX UNIV
UNIVERSAL
MACHINE

RX PS1BW
HOME GYM
WITH WEIGHTS

RX PS1BW
HOME GYM WITH WEIGHTS

- Lat machine for back (upper and lower wheel) back and triceps rods
- Chest pec deck
- Chest press (sitting bench press)
- Leg curl
- 50 kg weights (in 100 kg transmission)
- Over 20 different exercises
- Tube size 50x50cm
- Metal - black sandblasted-plasticized
- Synthetic leather black and white
- Mounted machine dimensions
- L: 1.5m x H: 2.1m x W: 0.8m
- Max user's weight 120kg
- NW-94 kg, GW-99.5 kg

RX UNIV
UNIVERSAL MACHINE

- Part with parallel bars for "sinking" - chest muscle exercises (reinforced with supports)
- Possible lower abdomen exercises
- Push-ups attachments
- Foot rest attachment for crunches (upper abdomen)
- Mounted machine dimensions:
L: 1.5m x H: 2.1m x W: 0.7m / 1.2m
- Tube dimensions 50x50
- Max user's weight 120 kg
- It looks the same as similar machines, but this device has better quality and thicker pipes, is more stable as it has a purpose-extended rear end

RX AW 2201-0.5 VELCRO WEIGHTS 2x0.5KG

- Velcro weights 2x0.5kg
- In red and orange
- For arms and legs

RX AW 2201-1 VELCRO WEIGHTS 2x1KG

RX 2001
TRAINING SPACE FLOOR
 10m x 1m x 8mm

- Excellent firmness and quality of rubber floor
- Used for the heavy weight zone (free weight), and can also be used for the entire training space
- The rubber floor is compact as a whole, not made from ground rubber waste that chips (like most rubber floors in our market)
- Absorbs shocks and noise, does not damage, very resistant
 - The color of the floor is black with white spray dots
 - The size of the roll is 10m x 1m (the roll has 10 m2)
 - The width of the roll is 1 m
 - The thickness of the floor is 1 cm

RX 2002
MACHINE MAT
 2m x 1m x 3mm

- Placed under the exercise equipment in your home.
 (for treadmills, indoor bikes, elliptical trainers, home gyms, benches)
 - Significantly reduces noise, which is very important because of inmates and neighbors
 - Protects floors / parquet from scratch and wear
 - Made of recycled rubber which is extremely firm and durable
- The same rubber is used for gym floors, except this rubber is much more elegant
- 100cm x 200cm x 0.3cm

RX RS1001

PLASTIC GYMNASTICS RINGS

- Not intended for gymnasts only
- The links are one of the most sought-after alternative training products
- Raise your fitness and workout level like never before using gymnastic links
- Used for pushups, lifting, rowing, squats and other suspension exercises
- Literally every muscle is used during training, which is not the case in classic bodybuilding and fitness training
 - The links are made of high quality plastic
 - Black
- The set contains 2 links and 2 strong straps for attaching links (with a buckle at the end), a cloth carry bag
